

My favorite part of the week was when i was able to convert a males large t shirt into a womens mini dress. I had bunched the amrs of the shirt and the bottom of the shirt then i was able to cut some slits into the back of the shirt and i got to use a really cool technique to give the slits a braided look. Also my fvorite part of the week was when janeshas mom had came in and mrs. neal had modeled for us also she had brought in some really neat clothes to share with us.
