

Things i Enjoyed alot this week was making the shirts in the fashion team. You had to pick a shirt and make it different and make some changes to the shirt . I put holes in the shirt and i drew some designs on the shirt then i folded the sleeves and then i even added a hood on the shirt . But I also enjoyed laying out the mosaic and i liked to sand the stuff of our own mosaic . It was very exciting because it was my first time. Well those are the things i enjoyed this week at BYP.
