

Impactful Week

My favorite thing I did this week was when we made clothes in fashion. We changed the shape of the shirts. I did at least 3 of them and i love them all. Yesterday we made a charger pocket so you can put your phone in it and hang it on the charger. I decorated it and made it pretty and i made a lot of bows with the hot glue gun. This part was my favorite because i like to express my creativity in my art work, and be able to do what i want. That was one of my favorite thing we did this week.
