

## My Favorite Thing we Did This week

The thing we did this week that was my favorite was making our own mini mosaics with Brendon and Linda. It was my favorite because it was my first time ever making a mosaic and I enjoyed trying something new. The thing I enjoyed about it was how I got to put any glass pieces on the cement instead of being limited to only a few selections. I also enjoyed how everyone was talking and getting along. At first I thought I wasn't going to like doing mosaics, but after I tried it, I'm starting to like it. I think that when we do the big one for A-Boss, I'll like mosaics a lot more.
