

My favorite thing we did this week was doing screen printing. I learned how to screen print better even though I already knew how to it. It was hard screen printing 50 papers, but we finished them. I liked the process in order to screen print. It was fun cleaning the screen with water in order to screen print. The lady in the screen print shop was also helpful because she told me what I needed to do in order to make the ink evenly on both sides. I also liked how Chris helped Sante and me out during screen printing.
