

*My favorite part of the week was when we got to dress up zora. For the fashion because it was really funny to see what we had in our box. To use and because we got the not so good box it had newspaper , colorful paperclips, rubber bands, toilet paper rolls etc.. it was just not a really good box but anyway , it was very fun and was a really good learning experience for me i never did anything like that so it was nice to do something like that and I really like it. So yea that was my favorite part of the week.*
